# Governor Elect Executive Budget

Fiscal Years 2002-2003

Governor Elect Judy Martz
State of Montana

### OFFICE OF THE LIEUTENANT GOVERNOR

STATE OF MONTANA

JUDY H. MARTZ Lt. GOVERNOR

STATE CAPITOL PO BOX 201901 HELENA, MONTANA 59620-1901

December 20, 2000

Honorable President and Members of the Senate Honorable Speaker and Members of the House

Honored Members of the Fifty-Seventh Legislative Assembly:

In Accordance with Title 17, Chapter 7, Sections 112, and 121, Montana Code Annotated, I am transmitting to you my Executive Budget recommended changes to the November 15, 2000 Executive Budget submission.

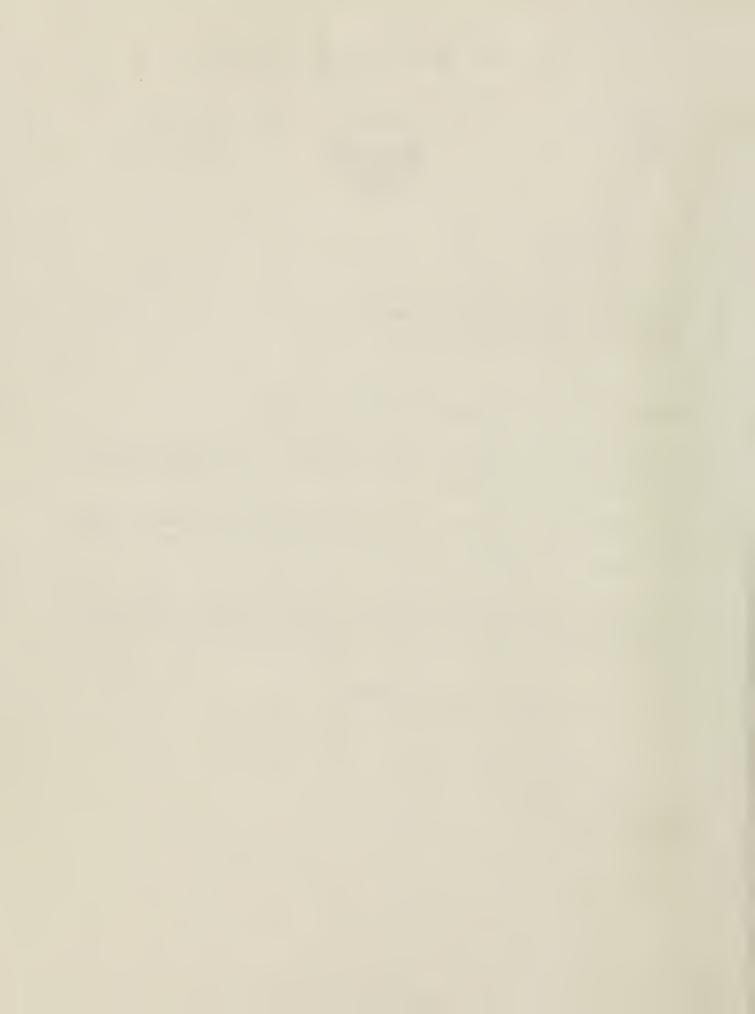

This budget sets forth a balanced financial plan for Montana state government for the 2003 biennium. Our recommendations are made on the premise that government. like all Montanans, must live within our means.

I want to thank all the people involved in working to prepare these amended recommendations. Together, we have prepared a budget with fiscal responsibility as our priority. Thank you to all the employees, at both the agency level and the Office of Budget and Planning.

Best wishes for a successful Legislative Session.

Sincerely,

Governor-Flect

#### **BUDGET OVERVIEW**

The goal of the Governor-elect's budget is to present a balanced budget based on revenues available. This budget will vary greatly from Governor Racicot's budget because no revenue enhancers were used. We have reduced overall spending by \$43 million. The following tables and narratives show these reductions. We are projecting an ending fund balance of \$30 million. It should be noted that we have not used any of the potential revenue from the sale of Montana Power properties, revenue from the Foreign Capital Depositories, or additional expected federal reimbursements for wildfire activity in our revenue estimates.

The Governor-elect's budget keeps the commitment to education, maintaining the 3 percent entitlement increase for K-12 and the \$7.5 million increase for higher education. In Public Health and Human Services, we provide for provider rate increases. Funding for local government reimbursements continues. Funding for the state pay plan also continues.

Revenues are anticipated to grow 2 to 3 percent per year for the next several years. Expenditures in the current fiscal year consume \$68 million of the \$170 million general fund balance built up over the past several years. It will require disciplined fiscal management to maintain important programs within available resources

#### Revenue and Taxation Committee adopted estimates

Use as a base revenue estimates adopted by the Revenue and Taxation Committee at its November 17 meeting. The major effect is to exclude \$25 million of estimated telecommunications tax revenues included in the Racicot budget.

#### Eliminate cigarette and tobacco product tax increase

Eliminates the proposed increases in cigarette and tobacco products taxes included in the Racicot budget.

#### **Corporate Audits**

Additional one-time revenue is available from several large corporate tax audits settled subsequent to the completion of estimates established by the Revenue and Taxation Committee. Only the current year estimate has been revised to reflect the additional amounts received.

#### **Tobacco Settlement - December Payment**

On December 1, 2000 we received notice from Chris Tweeten of the Attorney General's Office that the tobacco settlement payment due on January 15 would likely be received before the end of December and the estimated amount of this payment would be \$9.26 million. Since this would not be subject to allocation to the newly created tobacco trust the receipt prior to the January 1 date places additional revenue in the general fund of \$3.7 million.

#### TCA interest receipts

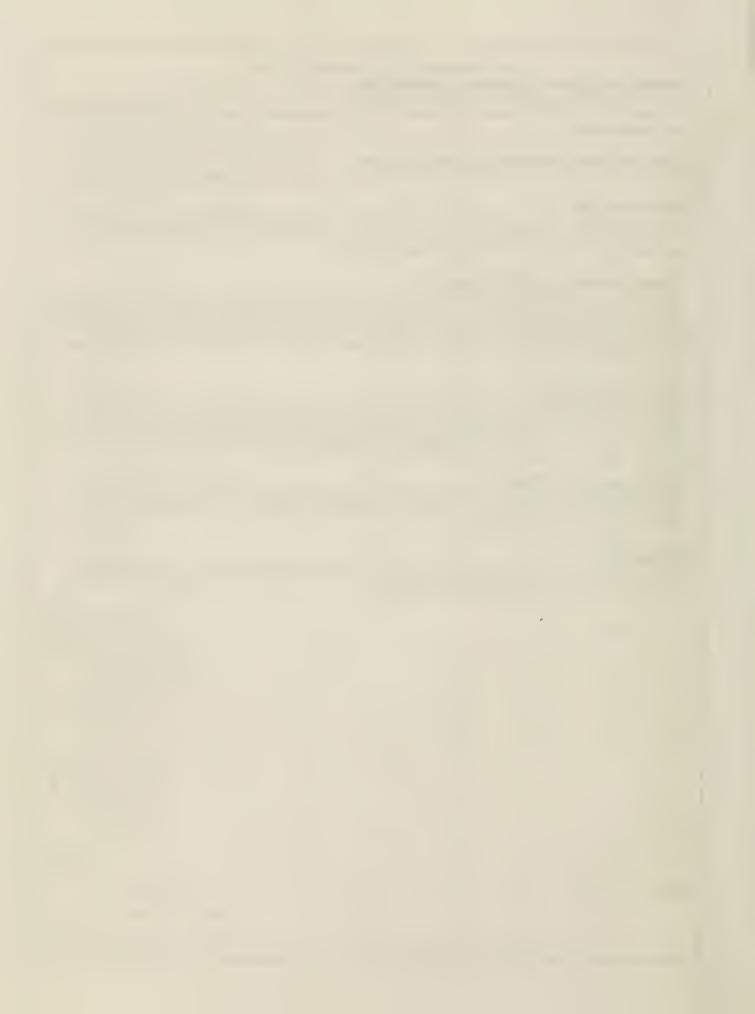

The revenue monitoring report for November indicated \$2.1 million additional revenue received in the current fiscal year from interest earnings on treasury cash. The increase is due to both higher interest rates on the balance and a significantly higher balance than was anticipated when revenue estimates were prepared. Only the current year estimate has been revised to reflect the additional amounts actually received.

#### Telecom tax revised estimate

The Department of Revenue has reviewed taxpayer receipts and issues relating to the Telecommunications tax and recommended that revenues will exceed those adopted by the Revenue and Taxation Committee by \$5.9 million over the next three years.

#### Salvage Timber

A salvage timber sale has been completed on lands near Sula and logging has begun. It is anticipated the state general fund will gain \$.8 million from this sale.

Capitol Complex will come from all the on-campus agencies and programs through payments to a proprietary fund, "rent and maintenance". This proposal removes the maintenance and the debt service aspects of the budget from rent collected from the agencies. The maintenance and debt service are proposed to be paid by \$1,866,110 of Capitol Land Grant money (05008). The rent reduction when spread among agencies will reduce general fund payments by an estimated \$792,800, state special payments by \$330,327, federal I fund payments by \$312,114 and proprietary fund payments by \$430,869 over the biennium. These amounts are not included in the agency tables.			
Program 23 – State Personnel PL 1 – Operating Cost Changes: The original budget identifies various workload and obligation issues. This adjustment will change the function of 1.00 FTE from a manager position, grade 20, to a Labor Relations Specialist, grade 16.	A-23	(\$8,385)	(\$8,385)
PL 1 – Contracted Service for Salary Survey: A biennial salary survey, required by 2-18-301, MCA, will be done by current staff instead of contracting with and outside vendor.		(18,000)	
Program 37 – State Tax Appeal Board PL 1 – Miscellaneous Operating Costs: The original recommendation recognizes that 3.00 FTE in this program relate to the use of personnel in the counties where the tax appeal hearings occur. The positions are used on a sporadic basis; thus the original decrease was to reflect that insurance is not paid to these occasional staff. This funding reduction recognizes that the full use of the FTE has not been historically needed.	A-66	(\$8,500)	(\$8,500)

<u>PL 61 – IHSB Present Law Adjustment:</u> This recommendation reduces the proposal and reduces general fund only by the amount shown. The adjustment increases various federally-funded energy and food assistance programs and adds general fund for the Montana Food Bank to purchase additional equipment and supplies. The original executive budget requests to increase federal spending authority by \$1,022,955 each year for various federally- funded energy and food assistance programs. These increases are in response to projected increases for the following federal grants: 1) U.S. Department of Energy (DOE) weatherization grant; 2) Bonneville Power Administration (BPA) weatherization grant; 3) Community Services Block Grant (CSBG); 4) Low Income Energy Assistance Program (LIEAP); 5) U.S. Department of Agriculture (USDA) Emergency Food Assistance Program (TEFAP) grant; and 6) USDA Food Distribution Program on Indian Reservations (FDPIR). Also, included in this request was \$100,000 of general fund authority in the first year of the biennium to enhance the services at the Montana Food Banks.

DP No. and Adjustment Description	EB Page	General I	Fund FY 2003
PL 63 – Food Stamp Adjustments: The executive budget requested \$1,339,352, including \$146,731 general fund, over the biennium, for the increases in federal grants. Federal funding for the Food Stamp Employment and Training program is projected to increase by approximately \$450,000 annually and no general fund is necessary to match these funds. Available federal funding for the Food Stamp Nutrition Education Program is projected to increase by approximately \$40,000 annually. The additional federal funds would allow two more counties to be served. Total number of cases served would increase by 11,496 recipients. Contracted services are also requested to administrate the increased responsibilities in the Food Stamp Program, to provide policy interpretation, and to monitor accuracy and efficiency. Food stamp administration federal grant requires a 50 percent general fund match.  **Adjustment* - This adjustment reduces the increase and funding in the executive**	B-4	(50,000)	(50,000)
budget by the below amounts.

PL 69 – County TANF, Food Stamp, and Medicaid: To enhance county eligibility outreach, case management, and resource coordination services for TANF, Food Stamps, and Medicaid, the executive budget included a biennial increase in spending authority of \$1,543,198, including \$761,598 general fund. County administration of the three public assistance programs: 1) the Temporary Assistance for Needy Families (TANF) block grant; 2) Food Stamps; and 3) Medicaid programs, has been impacted by major program changes. On-going Food Stamp programs include increased caseload in the Food Stamp Employment and Training Program. County eligibility workers workload has been increased to coordinate the three public assistance programs with other programs including the Children's Health Insurance Program and the Mental Health Services Program. This coordination provides participants with a broad array of services that will encourage self-sufficiency. This request includes funding increases in operational costs with the largest increases in rent and contracted services. These increases in operational costs are spread over 56 counties and 386 full time employees.	B-4	(250,000)	(250,000)

NP 145 – CHIP Eligibility Increase: To increase eligibility for the Children's Health Insurance Program (CHIP) from 150 percent to 175 percent of the federal poverty level, the executive requested \$3,785,956, including \$728,418 general fund, for FY 2003 to utilize previously unexpended federal funding. (A companion proposal, NP 987, in the Addictive and Mental Disorders Division contains funding to support an increase in CHIP eligibility to 175 percent for services offered within that program.) Each year Montana receives a federal CHIP allotment and has up to three years to spend this allotment before it reverts to the federal government. Since Montana has not fully expended the first two years of its CHIP federal allocation, the department requested \$728,418 in new general fund match in FY 2003 to match with \$3,057,538 from the previously unexpended federal allotment. Ninety percent of the requested amount will be used for benefits, 10 percent will be spent on administration. Because the department receives a new allotment each year, the carry forward periods and allotments overlap. This overlap will continue for the next eight years.	B-11	(437,051)

The DPHHS currently receives approximately 15-20 reports per year of perceived clusters of adverse health events statewide, each of which requires an in-depth investigation. Following the press coverage of the incident in Libby, the number of reported potential environmental health issues has dramatically increased.	B-11 (75,000)	(75,000)

PL701 Transfer of Tobacco Funds to OPI: Regarding the interagency agreement with the OPI for school-related tobacco use prevention services, the executive requested a reduction of \$316,954 general fund over the biennium to reflect the transfer of this amount to the Office of Public Instruction (OPI).	B-10	158,477	158,477
<u>Adjustment</u> - The adjustment reduces this proposal and increases the funding in the executive budget by the below amounts.			
FY 2002 FY 2003 GF SSR FF GF SSR FF \$158,477 \$158,477			
Program 08 - Quality Assurance Division			
PL 172 – Increased Licensure Bureau Services: There was added 1.00 FTE radiological health inspector and contract residential health care inspection services at a cost of \$217,599 general fund for the biennium. The inspector would provide additional inspection, survey, emergency response, and public education services for the radiological program. Included in this request is \$60,000 per year in contracted services for residential health care inspections.	B-12	(50,000)	(50,000)

Program 09 – Operations and Technology Division			
<u>PL 75 – Motor Vehicle Leasing (DOT):</u> The budget included \$114,526 for the biennium, including \$51,537 general fund, to lease ten vehicles in FY 2002 and an additional eight in FY 2003 from the Department of Transportation Motor Pool. The request accounts for vehicle liability insurance, gas, and maintenance, which were removed from the FY 2000 base as part of the present law adjustment decision package. The request was funded with 45 percent general fund, 9 percent state special revenue funds, and 46 percent federal funds.	B-14	(17,192)	(34,345)

Program 10 - Disability Services Division			
NP 141 – DDP Waiting List Reduction: To expand services to 42 people with developmental disabilities on the community waiting list, with five coming from the two institutions (Montana Developmental Center & Eastmont Human Services Center), the department requested \$4,485,731 over the biennium, including \$2,070,354 general fund. A portion of these individuals were to receive a full package of services and the remaining to be offered services to meet their needs of living and/or working independently in their communities. NP 192 – DDP Crisis Capacity: To fund the crisis capacity project to serve individuals who have emergencies while waiting for services, the department requested \$50,000 general fund over the biennium. Examples of crisis situations include when 1) an individual exhibits severe behaviors, 2) a care giver is unable to continue caring for an individual, 3) an individual's medical condition changes requiring additional or expert staff assistance, or 4) other unforeseen needs arise. Approximately 20 to 25 individuals are expected to benefit from this service. These funds were approved by the 1999 Legislature as one-time only.		(25,000)	(25,000)

<u>NP 119 – DD Provider Wage Parity:</u> The department requested \$6,564,227 over the biennium, including \$3,336,370 general fund, to minimize the difference in wages and benefits for direct service staff working in 52 state-wide private nonprofit corporations and those for comparable state staff for recruitment and retention purposes. The increase requested was five percent each year with an additional ten percent the second year applied only to the direct care wages.		(58,735)	(179,318)

NP 128 – VR Provider Rate Increase: To fund a 2.7 percent provider rate increase each year to Vocational Rehabilitation service providers, the department requested \$512,801 over the biennium, including \$184,905 general fund, for the over 2,000 providers serving individuals with disabilities. Vocational Rehabilitation serves more than 7,600 individuals with disabilities, assisting them in returning to work.	B-16	(4,293)	(8,879)

Program 22 – Senior and Long-Term Care Division			
NP 140 – Waiver Expansion: To provide Medicaid Home and Community Services to an additional 150 persons from the waiting list, the executive budgeted \$2.9 million for the biennium, including \$802,627 in general fund. The Medicaid Waiver provides payment for a variety of community services, including assisted living, to persons eligible for Medicaid reimbursed nursing facility care. The program is extremely popular, but because it is not a Medicaid entitlement, there are about 260 eligible people on a waiting list for services. The request also included a 0.50 FTE field staff person to handle increasing caseload.	B-19	(63,600)	(108,281)
Adjustment - The adjustment reduces this proposal and funding in the executive budget by the below amounts.			
FY 2002 FY 2003 GF SSR FF GF SSR FF (\$63,600) (\$216,938) (\$108,281) (\$279,157)			
NP 121 – Nursing Home Rate Stabilization: To provide a 4.5 percent per year funding increase to stabilize Medicaid Nursing Home rates, the executive recommends a total of \$14.2 million for the biennium, including \$2,307,396 in general fund. Total nursing home expenditures have increased by 6 percent in the last five years, primarily due to the growth of community service options and the resulting decrease in days of care paid for by Medicaid. Funding for rate increases has failed to keep pace with increasing costs. The Medicaid payment methodology has become increasingly unstable with significant variability in Medicaid rates, both among facilities and from one year to the next. If the situation does not improve, providers of nursing home services, especially those in rural communities, will find it more and more difficult to deliver acceptable levels of care. Clearly, the long-term care market place is changing. While there continues to be a need for high quality nursing home care, it is likely to be as a service option for a smaller number of people who are older and sicker than ever before. This request will increase, equalize, and stabilize rates by transitioning to a "price based" method of reimbursement over the coming biennium.  Adjustment - The adjustment reduces this proposal and the funding in the executive budget by the below amounts.	B-19	(11,032)	(22,556)
FY 2002 FY 2003 GF SSR FF GF SSR FF (\$11,032) (\$29,646) (\$22,556) (\$61,046)			
NP 129 - Provider Rate Increases: To provide a 1.5 percent per year rate increase to the Aging Services, Waiver, Home Health, and Hospice programs, there is budgeted a total of \$1.1 million for the biennium, including \$510,048 general fund. The cost of providing all long-term care services continues to increase rapidly. The rate increases for FY 2000 and FY 2001 of 1 percent per year did not keep pace with inflation. Long-term care services are critical to the health and well being of some of the most vulnerable citizens. Medicaid personal assistance services were excluded from this request because the division believes that the 3 percent direct care wage increase for those services included in the proposed budget is more important than a general rate increase. PL 1 – Crow Tribe Settlement: Because the state began paying this settlement on an accelerated 10-year schedule, it is possible to make this general fund reduction of \$1 million per year without harm. The remaining budget of \$500,000 per year will be paid to the account for the Crow Tribe to use as a result of the water rights and coal severance tax litigation settlement which was approved by the June 1999 Special Session of the Montana Legislature (85-20-901 and -902). "The State agrees to contribute the sum of \$15 million, in equal annual installments for a period of no more than 15 years beginning July 1, 1999, to a fund for the use and benefit of the Tribe" (Article VI A.1. of the Crow Water Rights Compact). Pending final effectiveness of the compact, these funds are paid into escrow (85-20-904). Accordingly, the DNRC will have general fund of \$500,000 in FY 2002 and in FY 2003 to continue to meet the state obligations under this settlement.	C-39	(1,000,000)	(1,000,000)

DP No. and Adjustment Description	EB Page	General I FY 2002	FY 2003
Include Health Insurance Benefits in Vacancy Savings: Vacancy savings was adjusted to include health insurance benefits in the 3 percent vacancy savings calculation. Other funds impacted were \$417 in each year of the biennium.		(118,209)	(121,500)
Additional 1% Vacancy Savings: Vacancy savings was increased from 3 percent to 4 percent on all funds. The additional 1 percent calculation includes health insurance benefits. Other funds impacted were \$1,444 in FY 2002 and \$1,451 in FY 2003.		(407,869)	(411,339)
Program 1 – Admin and Support Services PL 101 – Correctional Officer Pay: Correctional officer pay for recruitment and retention above the \$1.00 an hour increase already budgeted is removed in FY 2002, consistent with the budget recommendations for all state agencies.	D-19	(474,970)	
<u>PL 103 – Outside Medical:</u> Additional funding for outside medical services for increased adult population is removed. These costs cannot be accurately projected and budgeted. The agency had excess and was able to transfer some of the budgeted amount to other priorities in FY 2000. The base budget is continued in the 2003 biennium.	D-19	(367,914)	(589,853)
PL 107 – Personal Services not in Base: The adjustment in personal services for zero-based overtime was reduced based on budget office projections.	D-18	(73,730)	(73,730)
NEW 110 - Non-Employee Travel: This is a base adjustment to reduce 50 percent of \$23,961 each year in non-employee travel.		(11,981)	(11,981)
Program 2 – Community Corrections  PL 204 – TSCTC Direct Care Staff: A request by the Treasure State  Correctional Training Center for 3.00 FTE in FY 2003 has been removed.  Vacant positions may be used to fill these positions.	D-22	0	(89,175)

DP No. and Adjustment Description PL 308 – Juvenile Placement Savings: This biennium budget recommendation originally included savings generated when 40 juveniles are brought back from out of state, primarily to the expanded program in Miles City. An additional 20 juveniles have been added to this savings. Currently there are 50 to 70 juveniles in out-of-state placement.	EB Page D-22	<u>General</u> <u>FY 2002</u> (346,130)	Fund FY 2003 (401,500)
New 206 - Non-Employee Travel: This is a base adjustment to reduce 50 percent of \$24,533 each year in non-employee travel.		(12,267)	(12,267)
Program 3 – Secure Facilities  PL 302 – Pine Hills Operating Adjustment: Pine Hills Youth Correctional Facility operating costs are adjusted for 118 and 135 average daily population each year, respectively. The cost per day has been reduced from \$130.41/day to \$125.17/day in FY 2002 and from \$125.17/day to \$110/day in FY 2003.	D-24	(44,337)	(223,916)
PL 303 – MWP Expansion: The expansion of the Montana Women's Prison scheduled to be complete 12/1/02 will be delayed until approximately 2/1/03. As a result, operating expenses are removed in FY 2002 and reduced in FY 2003 based on the revised timeline.	D-24	(63,917)	(166,063)
PL 304 - Male and Female Contract Beds: The adjustments to expand male and female contract bed capacity for projected population were reduced. A request for contract monitors was removed since contracts already are being monitored in the current biennium.	D-24	(1,116,185)	(1,497,058)
PL 306 – Personal Services not in Base: The adjustment in personal services for zero-based overtime was reduced based on projections.	D-24	(348,888)	(348,888)

Program 01- Administration NP 1 - Personnel Officer: This eliminates the recommended 0.50 FTE and the related funding for a personnel officer.	E-17	(25,722)	(22,791)
NP 3 - Lewis & Clark Bicentennial: This adjustment is a funding switch from general fund to a like amount in the Dept. of Commerce accommodations tax. This will enable the agency to prepare for the upcoming Lewis and Clark Bicentennial.	E-17	(29,369)	(28,938)
NP 9 - Information System Support Specialist: This eliminates the entire proposal and removes 1.00 FTE and funding for an information system support specialist.	E-17	(46,221)	(43,372)
NP 10 - On-line Public Access: The new proposal to create electronic format information on archival holdings, books, historic photographs, museums objects, art, and historic site records is eliminated.	E-17	(22,217)	(29,000)
Program 03 – Museum  NP.12 - Scriver Curator: This adjustment is a funding switch from general fund to a like amount of Dept. of Commerce accommodations tax. This 0.50 FTE and funding will curate the Robert M. Scriver collection. The technician would provide minimal, basic curatorial care of the Robert M. Scriver collection of art, sculpture, taxidermy, guns, artifacts, photographs, books, and Western memorabilia.	E-19	(28,484)	(25,553)

DP No. and Adjustment Description	EB Page	General FY 2002	Fund FY 2003
PL 11 - Scriver Rent Storage: This funding switch of \$196,000 general fund to the Dept. of Commerce accommodation tax is for storage of the Robert M. Scriver collection of art.	E-19	(96,000)	(100,000)
NP 14 - Volunteer Coordinator: This eliminates the entire request for a 0.50 FTE and its related funding. This FTE was recommended to manage volunteers because the society currently relies on 80 to 100 volunteers for a wide range of work that could not otherwise be done and was planning to expand its use of volunteers.	E-19	(20,302)	(20,355)
Program 04 – Publications  NP 13 - Agency Newsletter Fund Switch: The funding switch for the newsletter and the management of the mailing list in one program is eliminated. This budget recommendation would have placed the society's basic newsletter and its mailing list management in a \$40,000 biennial general fund cost base in the Administration program, rather than in various programs in a proprietary fund base.	E-20	(20,000)	(20,000)
Program 08 – Lewis & Clark Bicentennial  NP 33 - Grant Funding: This budget recommendation is to provide the match for federal and foundation grants. The funding switch reduces the general fund and increases the Dept. of Commerce accommodations tax by a like amount for the match.	E-22	(100,000)	(100,000)
